

WORKING GENES

15TH RAM SALE 2022

INCHEOCH

**THURS 1ST SEPTEMBER 5PM
ON-FARM SALE - ON-LINE BIDDING**

53 TEXEL 4 SUFF-TEX 52 LLEYN

Viewing Days:
Thursday 25th August 3pm
Sunday 28th August 3pm
Or call to arrange a viewing.
Videos at www.incheochfarm.co.uk

GRASS FED ONLY

HARDY, ACTIVE TUPS BRED TO PERFORM

Functional Efficient Robust

How it Works:

- Bidding in £ pounds.
- The sale is being held with the help of Pentland Auctions, but purchases will be invoiced by Messrs Finlay McGowan. Please visit the office after the sale if attending.
- All rams will be guaranteed and covered for mortality for 3 months.
- Rams can be left on-farm until the end of September.
- We will try to facilitate delivery wherever possible.

We look forward to welcoming you On-Farm

See Videos of Rams on Yourbid or Youtube 'Working Genes Sale'

Log-on to register, bid anytime, check your bid before 5pm Sept 1st

Health:

Our flock is MV accredited and we maintain a strict quarantine and testing procedure which has lately helped us avoid bringing on CLA and we believe we are free of OPA. Rams will have been injected within 10 days of the sale with Cydectin LA, which gives a quarantine cover against sheep scab and worms. Rams will be drenched with Zolvix morning of sale.

Rams are on the Heptivac P system – next booster due in spring.

Sale Postcode – PH11 8HS

From Perth take the A94, then the B954 north just before Meigle,
At the five ways roundabout at Alyth take the B954 signed Glenisla.

Pass a golf course on either side of you, then at the T junction take right to Glenisla (staying on B954).

Continue for 4 miles, passing Incheoch on left, take next left signed 'Kilry' - sale venue first left at Parkhead Farm.

Welcome to the 15th **WORKING GENES** Ram Sale

“Our aim is to provide genetic solutions to real on-farm challenges – wrapped up, trouble free and ready to work. To do this we:

- Aim to produce structurally sound sheep that haven't been forced.*
- Performance record profit driving traits, under commercial conditions – similar to those in which you expect their progeny to perform.*
- Present rams straight from the paddock with all performance figures.”*

Call Neil & Debbie to talk sheep....
01828 633652 / 07788 100010

Sale by on-line silent-auction with Yourbid

Register now, bid from home or on-farm,
Bulls close 4pm
Texels close 5pm
Lleyns close 6pm

Stock on view sale day from 1pm
Ram Parade 3pm
Barbeque from 4pm

Today we offer our entire ram production which includes:

53 Texels

No-nonsense management (no ET, creep or night-lambers) promotes easy -lambing, robust rams & top performance from grass alone.

Sale rams average Index 297 (top 1%) - the average sale ram is benchmarked better than 99% of other performance recorded Texels.

52 rams higher fat than breed average,

We have selected for lambing ease for decades. Now with a Lambing Ease EBV, there are only 2 outwith top 10%.

We believe we are one of 2 Texel flocks in the UK selecting on FEC.

4 Stormtroopers ...tough & robust—with a touch of the ‘dark side’:

NZ Suffolk sire onto pure Texel ewes.

52 Lleyns

...from an 1000 ewe Lleyn breeding programme, ruthlessly selected for:

Maternal Performance, Ewe Efficiency & Easy Care Traits.

Rams av top10% for Maternal ability, top 25% litter reared and ewe BCS = lambs on the ground, reared well, from a ewe that holds her condition.

17 Society Inspected and registered.

TEXEL SIRES – GUIDE

Fearn Captain – the first crop from this son of Incheoch Yannis (a V Day son) out of a ewe that goes back to the Drinkstone flock. Captain is a really easy-fleshing type and his top 1% ebvs for gigot shape and muscle depth and area together with a high fat, means he is a good fit for our bigger ewes.

Incheoch Blizzard – (pictured) son of Glenway Yosemite out of a 6-crop ewe who has never been helped to lamb. He is long with great shape and is wild like a stag! His daughters are turning into great ewes. His top 1% figures for Lambing Ease, Litter Reared and FEC suggest they'll be good, no-nonsense flock ewes.

Incheoch Dalwhinnie – by Cruachan (a V Day son who went to Ann McLaren at Dalmally). Dalwhinnie went to Brian Ridland, Orkney. A big, strong, rugged looking tup with high fat and maternal figures matched with low birth-weights—he looked like breeding nice type females.

Incheoch Drum Major – Another Cruachan son, this boy set the CT scanner spinning with his terrific carcass. CT scanning gives an ebv for eye muscle area (chop size) average is about 0, top 1% is about 1, Drum Major is 2.38, with a gigot shape to match. He went to Jen Nicholson at Kinclaven last year.

Lambing Scores:

1. Lambed Self
2. Slight Assist
3. Assist
4. Difficult
5. Caesarean

BWT	Birthweight	-ve = lighter lambs born.
LE	Lambing Ease	+ve = easier births
Mat	Maternal	mothering & milk component of 8 week weight
8 Week Weight		+ve = higher weights at 8 weeks
Scan weight		+ve = heavier carcasses (post weaning)
Muscle Depth		from ultrasound: +ve = well muscled carcass
Fat Depth		+ve = more, -ve = less fat
Gigot		from CT scan: +ve = better shaped gigot
Faecal Egg Count		-ve = less worm eggs produced under a challenge

Bwt - Birthweight +ve = heavier lambs at birth
 Surv - Lamb Survival +ve = higher likelihood of surviving to 8 wks
 Lit r -Litter reared +ve = more lambs reared (avoid extremes)
 m'nal-Maternal est. of mothering & milk component of lamb's 8 wk weight
 8wk -8 Week Weight +ve = higher weights at 8 weeks (shearing)
 Wt -Scan weight (21 weeks) +ve = heavier carcasses (post weaning)
 Msc -Muscle Depth from ultrasound: +ve = well muscled carcass
 Fat -Fat Depth +ve = more, -ve = less fat (avoid extremes)
 P+ -an indicator of sheep more resistant to parasites, from ebvs for Faecal Egg Count and serum IgA (higher number is better)
 ewekg Mature Weight from ewes pre-tupping +ve = heavier ewes
 BCS Body Condition Score ewes pre-tupping +ve = fitter ewes
 Index - New Lleyn Index, designed to penalise larger ewes and extreme prolificacy, and promote good mothering and lamb carcass & growth.

Catalogue excerpt for Incheoch Legend - influential stock sire

Ewe Wt 68 kg

Most recent tugging weight of ram's mother

	b/r	eff%	le/mother/vig
2012	2/2	1.15	021
2011	2/2	1.01	020
2010	2/2	1.13	021
2009	2/2	1.14	021
2008	2/2	1.09	000
2007	1/1	0.69	000

Mother's efficiency ratios:

Combined lamb weight at 100 days
Ewe weight at tugging

Key to Lleyn Data

With example of Incheoch Legend who had over 500 progeny recorded in our flock between 2010–2015. He was an outstanding performer in his day and a good benchmark to demonstrate the change in performance levels of the recorded lleyn population. His daughters have been excellent, long-lasting ewes, neither small nor too big and he took us to weaning lambs fit for the store ring to fit for slaughter.

Pedigree and birth type (born and reared)

EBV code

XXX = top 10%

XX = top 25%

X = top 50%

Shows how the EBV compares with the breed evaluation.

Mother's lambing scores:

Lambing ease

(0 = lambed unassisted)

Mothering ability

(0 = normal mothering behaviour)

Lamb vigour

(0 = no assistance)

- positive scores mean better than average behaviour.
- negative scores indicate assistance or problem.

Mother's lambing history, including number of lambs born and reared to weaning.

Lleyn Stock Sires

Jailbreak – by Appledown (below) out of a Bankfarm Equity daughter, you can rely on his daughters to increase fat levels and leave plenty body, although some have a little more coat. Out of 263 gimmers to the ram last year, Jailbreak's twin sister is looking like the top one and we are looking out for her ram lamb to use.

Appledown (left) – we bought this ram from Dom & Bethan Klinkenburg to get a son back from an Empire son we were sorry to see go. He is a big, rugged sheep with good stature, lots of width behind and plenty go. Positive fat and extra muscle depth are his strong points. Higher birthweights.

Jarl (right) – from a sire-line that goes Iceberg, Himalaya, Gael, Equity—he is a smart ram with great hair, skin and fleshing. Look to Jarl rams for good worm resistance and increased litter size in long, nicely-bodied sheep. We reluctantly sold him last year (to Gary Smith, Shetland), but used 2 pretty special sons.

Jericho – led the sale last year selling to James Traquar, Thurso. With Comrade and Hercules' mother in his background, he is a powerful, robust sheep. Only one son made it through all the hoops for the sale, but he's a good one.

Jupiter – by Ithika, by Hercules—Jupiter's pedigree is stacked full of small framed old ewes that hold a lot of flesh, last for ages and breed good coated, shapey lambs. You will find rams that excel for lamb survival, maternal, muscle depth and body condition score in this pen.

Joe Cool & Houdini – we bought Houdini from Lional Organ for his structure, skin and a long, level top. He has bred a different growth-pattern than we are used to, probably not so suited to our low-input system, but he has really clicked with some of the ewes that are a bit on the small side. Joe Cool is a good example—out of a low-to-the-ground thick ewe that we took to the Highland Show this year.

Islander – this homebred senior stock ram is a trait leader for Parasite Plus index with good maternal and muscle too. His low ewe weight and high Condition Score figures are a testament to his pedigree which is stacked full of robust, long-lasting, hard working ewes, through rams like HiJinx, Gypsy King, Finnigan, Mustang and Legend. His mother weaned 14 lambs over 8 crops and never assisted.

Jura – From the same sire line as Islander, with the same robustness, plenty ‘go’, and smart looking sheep. The Jura pen were very good as lambs and we used a few. Good Parasite Plus figures, and quite strong growth for our type of sheep. Lamb scan figures show low fat, but he has a high condition score ebv—it’s exciting now having these two traits as we used to assume more fat in the lamb would correspond with easier-keeping ewes. We will keep an eye on this over the coming years.

Jacobite - sired by Highlander (pictured), a well muscled, blocky sheep that reduces ewe weight. His mother brought home the cup from Perth Show in her glory days, but she has settled down into a good productive ewe now! Jacobite has bred a good balance between the two. Look in this pen for top maternal and high fat figures.

Jorvik - by the same sire as Jarl, Jorvik has bred a bigger, more rugged type. His mother is pretty near my ideal - a little Firefox daughter who has conceived and weaned 4 good sets of twins in 4 crops. Tups with good muscle, maternal and high BCS in this batch.

Duncan (below) - a Thistleyhaugh sire we selected for his high maternal and worm resistance figures. We didn’t use him so heavily for a while as his offspring have quite a wild streak, but his daughters are exceptionally good mothers and settle right down when they lamb. Now a 6 shear, he has proven to be a reliable ram and a breeder of good maternal, milky ewes and is an important part of the program.

Elanco

MAKE THE INVISIBLE

FACT YOU WON'T SEE WORM RESISTANCE ON YOUR FARM.

ZOLVIX™ REMOVES THE INVISIBLE RESISTANT WORMS IN YOUR LAMBS.* TRY IT AND **SEE THE DIFFERENCE** ON YOUR FARM.

* Where worm burdens are reducing productivity the use of a fully effective wormer will improve productivity. Zolvix is known to kill all productivity limiting roundworms, even those that are resistant to other classes of wormer. **Reference:** DM Leathwick and BC Hosking, Managing anthelmintic resistance: Modelling strategic use of a new anthelmintic class to slow the development of resistance to existing classes, New Zealand Veterinary Journal 57(4), 203-207, 2009
